*"Helping Customers Realize Their Business Dreams!"*

## 10 Great Ways

**C-credit Leasing Services Designed to Increase Your Sales!**

- 1. We Fund C-Credits for the Broker Community!** TEAM's credit appetite is designed specifically for customers that cannot credit score with your preferred "A-credit" funders. Weaker credits, newer companies, new ownership, weak collateral. Typical lease sizes range from \$10-\$100K.
- 2. We Look for Reasons to Approve Your Customers:** We listen to "The Story" and look for reasons to approve your customers. (We'll need your permission to interview your customer.)
- 3. Your Vendors will be Pre-Funded!** They'll receive at least 50% when the lease is signed, 50% when delivered. Call for enrollment details!
- 4. Our Promise: Complete Broker Protection!** You will receive a written promise of customer protection. Your customers and vendors will remain confidential.
- 5. Gold in C-Credits:** Brokers can find new found commissions on deals that might have otherwise been dead. You will earn an additional \$75,600 per year by funding just two \$35,000 deals per month.
- 6. We Communicate!** No more guessing. You will receive automatic emails with customer status. All correspondence is time stamped and dated.
- 7. Structured Approvals:** Give us your creative input and we'll try to structure the approval to fit the credit. (We'll probably think of a way for you.)
- 8. Start-Ups? YES!** TEAM will interview every customer to determine their individual strengths. Such as: solid business ideas, other sources of income, industry experience, integrity, organization skills, cash invested, is the equipment essential to operations, etc?
- 9. Immediate Credit Decisions!** You are talking to the credit decision makers. All customer approvals and billing is completed in-house.
- 10. We do all of the documents so you can spend your time selling!** Once you have submitted your application with financials and given us permission to contact your customer, we will conduct the interview, process the documents, and re-contact everyone when the customer has been approved (or declined). We then follow up with signed documents, manage the funding procedure and put time back into your day!
